SUMMARY

Computer Science sophomore at Loyola University Maryland with experience in machine learning, software development, and IT systems administration. Proven ability to build and deploy production-level applications. Presidential Scholar, active technical leader, and CompTIA A+ certified professional seeking part-time roles in software development, IT support, or data analysis.

EDUCATION

Loyola University Maryland

Bachelor of Science in Computer Science

- Awards: Loyola Presidential Scholarship, Delegate Scholarship
- Programs: Hyman Science Scholar, Haig Scholar, Hauber Research Fellow
- Coursework: Data Structures and Algorithms, Operating Systems, Stochastic Processes, Programming Languages

Baltimore, MD

Anticipated May 2027

RESEARCH EXPERIENCE

Hauber Research Fellow – AI/ML Research

Loyola University Maryland

- Engineered CNN models for pothole detection achieving 92% accuracy across a 5,000-image dataset.
- Built end-to-end ML pipeline using Python, TensorFlow, and Roboflow from data collection to model evaluation.
- Measured performance with precision, recall, and F1 score; results prepared for academic publication.

Summer 2025

Baltimore, MD

WORK EXPERIENCE

IT Technical Services Assistant

Loyola University Maryland

- Deployed and configured operating systems and enterprise software across 90% of campus devices, supporting 3,000+ users.
- Diagnosed and resolved hardware and software issues, reducing average ticket resolution time by 20% across the IT department.

Summer 2024 – Present

Baltimore, MD

Technical Coordinator

Carroll County Government

- Designed a Power App to automate temperature tracking workflows, improving team efficiency by 40%.
- Streamlined data systems using SharePoint and Excel automation, eliminating redundant entry across 3 departments.

Summer 2023 – Spring 2024

Westminster, MD

Information Technology Intern

Carroll County Government

- Built a data-tracking application using Power Apps and Power Automate, serving 20+ daily active users.
- Launched a SharePoint intranet site for centralized documentation, reducing document retrieval time by 35% and improving cross-team knowledge sharing for 50+ employees.

Summer 2023

Westminster, MD

LEADERSHIP EXPERIENCE

Association for Computing Machinery and Cybersecurity Club

Co-President

- Led 50+ member organization; organized 10+ technical workshops, hackathons, and industry networking events each semester.
- Grew club membership by 30% year-over-year through sponsorships and faculty partnership initiatives.

Fall 2024 – Present

Loyola University Maryland

Robotics Club

Vice President

- Oversee cross-functional project teams and coordinate STEM outreach partnerships with external organizations.

Fall 2024 – Present

Loyola University Maryland

PROJECTS

Pothole Detection System

Python, TensorFlow, Roboflow, Convolutional Neural Network

- Trained a CNN on 5,000 manually labeled roadway images, achieving 92% detection accuracy.
- Optimized preprocessing pipeline to cut training time by 25% without reducing model performance.

2025

Personal Portfolio Website

React, Material-UI, Netlify

- Developed and deployed a fully responsive portfolio site using React and Material-UI.

2024

TECHNICAL SKILLS

Languages: Java, Python, C, C++, SQL, JavaScript, HTML, CSS, LaTeX

Frameworks and Libraries: React, Node.js, Flask, FastAPI, Material-UI, pandas, NumPy, Matplotlib, TensorFlow

Tools and Platforms: Git, Docker, Google Cloud Platform, Power Apps, Power Automate, SharePoint, VS Code, PyCharm

Certifications: CompTIA A+, CPR Certified
